Dear Sir:

APPEAL FOR A FAIR CLINICAL TRIAL OF MY TREATMENT OF
CARCINOMA WITH INTRAMUSCULAR PARAFFIN INJECTIONS

I beg of you to get my PARAFFIN treatment of cancer a
FAIR CLINICAL TRIAL.

It is a well known fact that intramuscular injections of paraffin cause LOCAL growths of fibrous tissue, called paraffinomata. What has been generally overlooked is their REMOTE stimulation of fibrous tissue formation, thus enhancing the encapsulation of true carcinomata, which is nature's defense against tumors of epithelial origin. As x-ray radiation reduces this natural reactivity, best results of my PARAFFIN treatment can be expected in patients who have got the least amount of x-ray treatments.

"PROGRESS IN SCIENCE IS GOVERNED BY THE LAWS OF REPULSION;
EVERY STEP FORWARD IS MADE BY REFUTATION OF PREVALENT ERRORS
AND FALSE THEORIES." Doctor Zhivago

Very humbly,
